

EBTE Consultants Ltd.

EBTE Consultants Ltd. provide technical, scientific and commercial services to the food industry. Founded in 1997, EBTE is an interdisciplinary team consisting of veterinarians, food technologists and specialists in international relations.

EBTE has particular strengths and experience in:

- Technical consultancy for the establishment of hygiene, safety and quality assurance (QA) systems for the food industry, with special emphasis on muscle foods
- Design of food processing plants
- Certification of key personnel in the food safety and hygiene industries
- Implementing food hygiene and safety systems including HACCP, ISO 9000 and TQM
- Conducting feasibility studies and building business, development and investment plans for food and agri-business companies and organisations
- Participation in technical assistance and cooperation programmes (TCPs) funded by national, European and International bodies, such as Tacis, PHARE, Retex, AIR, FAR, FAIR and Copernicus
- Developing and implementing training programs associated with the food and agri-business sector.

From its headquarters in Athens, Greece, EBTE has a strong presence in the Eastern Mediterranean, Eastern Europe and the Former Soviet Union countries.
